The FiberLite® Pod Tradesman™ is the most compact fiber splicing trailer on the market, packing a punch of comfortability, reliability and value within an agile, smaller frame. Every Pelsue FiberLite® trailer includes aluminum frame construction, premium craftsmanship and the unmatched longevity of our fiberglass body.

Featuring durable finishes and two slider windows, fresh air and natural light are abundant in this compact yet flexible workspace. An optional cable access door, located on the curb side of the trailer, allows flexibility to bring in splice cases if you can't bring them through the rear door.
